

Information on the BS/MS Program in Computer Science

Rochester Institute of Technology
B. Thomas Golisano College of
Computing and Information Sciences
Department of Computer Science
Building 70, Room 3005

What is the BS/MS Program

The BS/MS program is for outstanding undergraduate students who wish to spend approximately one additional year to complete their MS degree immediately after their BS degree. A student who is accepted into the BS/MS program will be able to take **two graduate courses** (8 quarter hours) in Computer Science and apply them to both the BS and MS degree requirements. There can be **significant financial benefits** to students who enroll in this program, although these are best discussed with your financial aid counselor.

A student will not receive their Bachelor's degree until the requirements for both Bachelor's and Master's degrees have been completed.

Requirements

Students who are interested in this program must meet the following requirements:

- They are active, undergraduate Computer Science majors.
- They have third year standing.
- They have attended RIT for at least two quarters.
- They have a grade point average of at least 3.25, both overall and in their field of study.

Contact Information

If you have any questions regarding this program, please feel free to contact one of the individuals listed below:

Tina Sturgis
Coordinator of Student Services
