

The graph illustrates a complex chemical structure composed of several interconnected rings and chains. The nodes are labeled with chemical groups, and the edges are labeled 'Single', indicating single bonds. The structure includes:

- A central horizontal chain of nodes, including N\_1, N\_2, and N\_3.
- A large, complex ring system on the right side, featuring nodes like C\_2H\_2\_3\_2 and C\_1H\_1\_3\_1.
- A smaller ring system on the left side, featuring nodes like C\_1H\_1\_3\_1 and C\_2H\_2\_3\_2.
- Various other nodes and bonds forming a dense, interconnected network.
