

The diagram illustrates a complex chemical structure, likely a protein-ligand complex or a large organic molecule. The structure is composed of several interconnected rings and chains, with atoms labeled as follows:

- Carbon (C):** C<sub>1</sub>
- Nitrogen (N):** N<sub>1</sub>, N<sub>2</sub>, N<sub>3</sub>
- Oxygen (O):** O<sub>1</sub>, O<sub>2</sub>, O<sub>3</sub>
- Hydrogen (H):** H<sub>1</sub>, H<sub>2</sub>, H<sub>3</sub>, H<sub>4</sub>
- Sulfur (S):** S<sub>1</sub>
- Fluorine (F):** F<sub>1</sub>

The structure is highly branched and includes several rings. The bonds are labeled as "Single". The overall structure suggests a complex molecule with multiple functional groups and a high degree of connectivity.
