

The graph consists of 46 nodes and many edges. The nodes are labeled with IDs such as 21_1, 28_1, 29_1, 30_1, 31_9, 32_13, 33_7, 34_3, 35_4, 36_4, 37_4, 38_4, 39_4, 40_4, 41_14, 42_15, 43_15, 44_13, 45_5, and 46_5. The edges are labeled 'Single'. The graph is divided into three main clusters. The left cluster contains nodes 21_1 through 31_9. The middle cluster contains nodes 31_9 through 41_14. The right cluster contains nodes 41_14 through 46_5. There are several dense subgraphs, particularly around nodes 31_9 and 32_13.
