

The graph illustrates a complex molecular structure with the following components:

- Atoms:** Labeled with element symbols and indices, such as O₁, S₁, N₁, H₁, O₂, S₂, N₂, H₂, N₃, N₄, and various numbered atoms (e.g., 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19).
- Bonds:** Labeled as 'Single' or 'Double' bonds connecting the atoms.
- Structure:** The graph is highly branched and interconnected, representing a complex molecular structure.
