

The graph illustrates a complex molecular structure with the following components:

- Atoms:** Labeled with element symbols and indices, such as O₁, N₁, S₁, F₂, and various numbered nodes (e.g., 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27).
- Connections:** Labeled 'Single' or 'Double', indicating the type of bond between atoms.
- Structure:** The graph is highly branched and interconnected, representing a complex molecular structure.
