

The graph illustrates a complex molecular structure with the following components:

- Atoms and Labels:** The graph contains 15 vertices. Most are labeled "Single". Specific atoms are labeled: S 1, N 1, N 2, N 3, O 1, O 2, O 3, and O 4.
- Connectivity:** All edges are labeled "Single", indicating single bonds between the atoms.
- Structural Features:**
 - A central chain of atoms: S 1 - N 1 - N 2 - N 3.
 - Branches from S 1: One branch leads to a ring containing O 1 and O 2. Another branch leads to a larger ring system involving O 3 and O 4.
 - Branches from N 1 and N 2: These lead to various other rings and chains, including a large ring system on the right side of the graph.
