

The chemical structure is 1-methyl-4-((2-methoxy-4-((methylamino)carbonyl)benzylideneamino)ethoxy)benzene-3-carboxamide. It features a central benzene ring with a methylamino group (CH₃NH-) at position 1, a methoxy group (-OCH₃) at position 2, and a benzylideneamino group (-CH=N-) at position 4. The benzylideneamino group is connected to a benzene ring that has a methyl group (-CH₃) at position 1 and a carbonyl group (-C(=O)-) at position 3. The carbonyl group is connected to a methylene group (-CH₂-) which is further connected to a methoxy group (-OCH₃).
