

Chemical structure of 1-(2-(2,2,2-trifluoroethyl)-2-hydroxyethyl)-N-(2-phenylethyl)benzamide. The structure features a benzamide core with a 2,2,2-trifluoroethyl group on the amide nitrogen and a 2-phenylethyl group on the amide carbonyl. The amide carbonyl is highlighted in red, and the amide nitrogen is highlighted in green. The 2-phenylethyl group is highlighted in purple, and the 2,2,2-trifluoroethyl group is highlighted in red. The structure is shown in a 2D representation with a coordinate system.
