

The chemical structure is 4-(4-methyl-2-oxobenzoyl)-2-(4-methoxyphenyl)-1,3,4-oxadiazole. It features a central 1,3,4-oxadiazole ring. At position 2, it is substituted with a 4-methoxyphenyl group (a benzene ring with a methoxy group at the para position). At position 4, it is substituted with a 4-methyl-2-oxobenzoyl group (a benzene ring with a methyl group at the para position and a carbonyl group at the ortho position relative to the oxadiazole attachment point). The structure is drawn with various bond colors (blue, red, green, yellow, cyan, magenta, brown) and atom labels (H3C, O, N, CH, O, CH3) in a multi-colored font.
