

The diagram illustrates a complex chemical structure with the following components:

- Atoms:** Carbon (C), Hydrogen (H), Oxygen (O), Nitrogen (N), and Sulfur (S). Each atom is labeled with a unique ID (e.g., C_1, H_1, O_1, N_1, S_1).
- Bonds:** All bonds are labeled "Single".
- Structure:** The molecule is highly branched and contains several rings. Key features include:
 - A central chain involving N_1 and S_1.
 - A complex ring system on the right side involving S_1, O_4, O_6, and C_4.
 - A side chain on the left involving O_1, O_2, and O_3.
