

The chemical structure features a central pyrimidine ring. At the 2-position, there is a 4-fluorophenyl group. At the 4-position, there is a 4-methylsulfonylphenyl group. At the 5-position, there is a 2,2,2-trifluoroethyl group. At the 6-position, there is a 2-oxo-2-methylpropylamino group. The molecule is drawn with a rainbow-colored bond style.
