

The diagram illustrates a complex network structure, likely representing a graph or a system of interconnected components. The nodes are labeled with various symbols and numbers, including Greek letters like λ , ϕ , π , and σ , as well as mathematical symbols like div , $\int$, and λ . The edges are represented by lines connecting these nodes, forming a complex web. The layout is organized into several layers, with nodes at the top connected to nodes in the middle, which are then connected to nodes at the bottom. The overall structure suggests a hierarchical or flow-based system.
